This screenshot shows the 'Field Mapping' interface in Metro Print. At the top, there is a dropdown menu for 'Sample Data Standard' and a 'Save Changes' button. Below this is a table with columns: Field Name, Include, Identifier, Hierarchy, Quantity, Effective Date, Price Comparison, Show On Report, and Alias. The table lists several fields: Plan Name, SKU, No of Tickets, Facings, Description, and Barcode. Each row has a 'Show On Report' checkbox and an 'Alias' input field.

This screenshot shows the 'Edit Fields' interface in Metro Print. On the left, there is a list of fields with their data types: Plan Name (String), SKU (Integer), No of Tickets (Integer), Facings (Integer), and Description (String). On the right, there is a form for editing a field. The 'Name' field is set to 'SKU'. The 'Friendly Name' field is also set to 'SKU'. The 'Data Type' is set to 'Integer'. There are several checkboxes: 'Is Quantity For Datafile', 'Is Hierarchy External Reference For Datafile', 'Is Effective Date For Datafile', and 'Show On Report'. A 'Save Field Changes' button is at the top right.

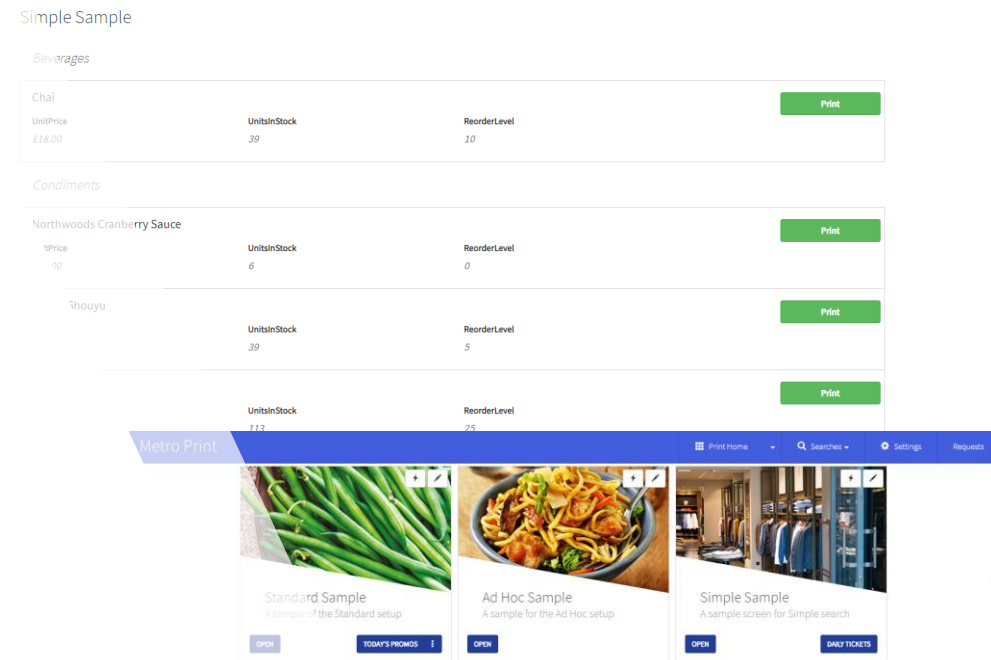

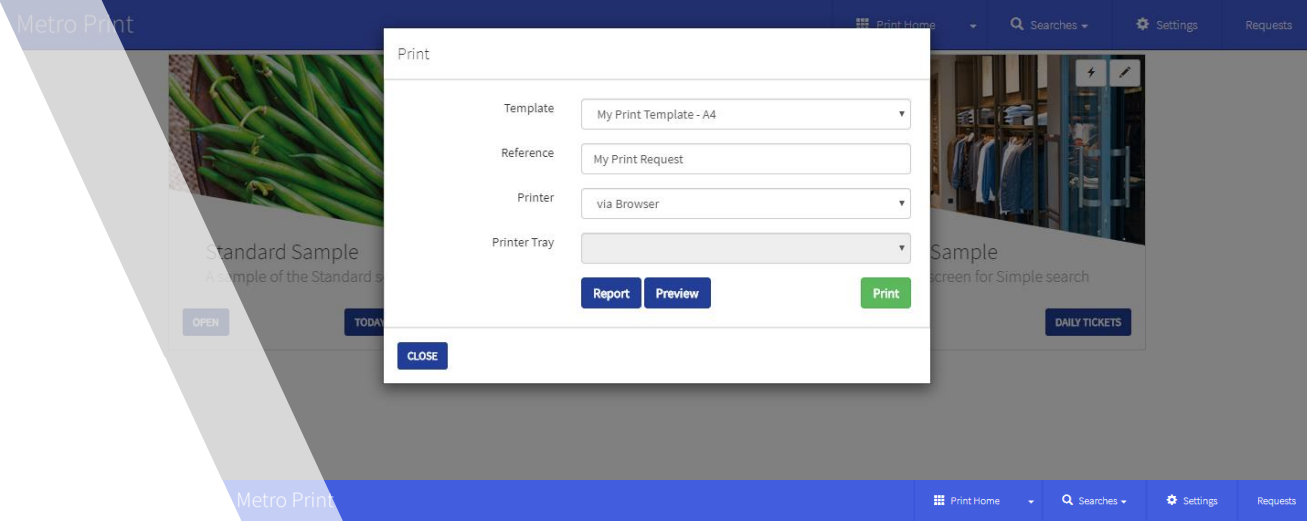

This screenshot shows the 'Records' interface in Metro Print. It displays a table with columns: Name, SKU, No of Tickets, Facings, Description, Barcode, Price Date, Price (p), and Location. The table contains several rows of data, including items like 'Clear Tape twin pa', 'White Tack', 'Kingsmill Golden P', 'Warburtons Plain 1', 'Galaxy Golden Egg', 'Quality Street Malt', 'Oreo White Choc 2', 'Cadbury Biltza Wng', 'Cadbury Dairy Milk', 'Energizer Max AA 4', and 'Cadbury Dairy Milk'.
